

Law & Forensics

Solving Complex Legal Issues Worldwide™

Helped Celebrity that was Being Cyber Stalked Identify and Remediate with State and Federal Law Enforcement

When a well-known celebrity and his wife's e-mail, EBay accounts, PayPal accounts, and mobile phones were hacked by an obsessed fan, one of Law & Forensics' consultants was called in to perform an electronic forensic investigation of the accounts and devices in question.

Our consultant was recommended to perform the investigation due to his prominence in the field of high-profile mobile device forensics and background in criminal justice. After investigating the IP address of mysterious e-mails sent from the clients' account, our consultant noticed a pattern. Due to the consultant's experience with U.S. federal law enforcement agencies, he was able to trace the IP address to an employee at a research facility for a U.S. government agency.

If not for the consultant's acumen and specialized background, the hacker and the hacker's access to sensitive information at the U.S. government agency would have slipped under the radar.
